1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-34 is that none of the references cited, taken either singly or in combination, teach or disclose a process for generating steam for downhole injection in a steam flooding process for oil recovery, as in the claimed combinations, including the recited steps (d) and (f)-(h) of claims 1. For example, the reference to Heims (2003/0127226) discloses an overall process for generating steam, including the use of an evaporator comprising a circulating concentrated brine stream. Such process, however, does not appear to generate the steam for injection directly in the circulating concentrated brine evaporator, nor does it heat the evaporator with a separate steam source comprising a watertube boiler, as specifically called for in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GEORGE SUCHFIELD whose telephone number is (571)272-7036. The examiner can normally be reached on M-F (6:00 - 2:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jennifer Gay can be reached on 571-272-7029. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
